

FRENZI 2 Year Anniversary Party CALIBRE (Belfast, Ireland)

[Signature Recordings | abunchofcuts.com | Soul:r | Deep Medi]

Dominick Martin aka Calibre has been responsible for some of the most beautiful tracks in drum & bass to date and continues to drop jaws worldwide with his sublime and sultry productions. Calibre's sound has progressed taking in elements of jazz, funk, dub and techno but lost none of it's soul. His influence in drum & bass has been profound yet Calibre continues to evolve as an artist, exploring new techniques and styles in his music. His sets focus primarily on the deeper, more musical side of drum & bass yet never disappoint the dancefloor. Artists and DJ's from all corners of the electronic music spectrum constantly remark on Calibre DJ sets restoring their faith in Drum & Bass as a vital musical force.

Often imitated but never bettered, Calibre's sound remains his own after ten years of producing and releasing drum & bass. A creative force and inspiration to others, he refuses to be pinned down to making music in a single style. His single for the Deep Medi label, run by Digital Mystikz don Mala, received a warm reception in the dubstep scene and has demonstrated once again his diversity as a producer.

Consistently the standout on worldwide lineups, every Calibre set is a unique and much valued experience for all those lucky enough to encounter this visionary in a DJ setting.
